

Seneca Healthcare District

HEALTHCARE PERSONNEL COVID-19 TESTING

DATE: 4/04/20

FROM: Lyndsey Theobald, PIO

FOR IMMEDIATE DISTRIBUTION

In coordination with our other county hospitals as well as Plumas County Public Health Agency, as of April 3, 2020 Seneca Healthcare District (SHD) has begun testing employees for COVID-19. We are doing this in an abundance of caution to continue to keep our patients, residents, staff and community safe. SHD is currently testing healthcare personnel whose job duties require frequent patient contact.

By testing these staff members, we will be able to rule out any asymptomatic carriers and will allow us to take a proactive approach.

SHD continues to work closely with Plumas County Public Health Agency as well as the other hospitals in the county to monitor the spread of COVID-19. We will continue to update the community as information is made available to us.

530-258-2151 HOSPITAL
